## **Hinge & Lock intumescent fire protection range** [DATA SHEET 10309](#)

### **Description**

The **Firesure®** Hinge and lock intumescent paper protection range is a flexible intumescent paper based protection sheet, unaffected by moisture. Supplied in standard sizes for quick and easy fitting. For use behind hinges and steel door closers and completely wrapped around the hidden parts of lock hardware on a fire-rated door. When installed, the sheet compresses without compromising its protective qualities. The intumescent paper helps protect the lock, hinges, and screws and protects them from overheating in the event of a fire. Under UK Building Regulations and BS476 Part 22 (1987), Rated when tested with complete door sets and frames only. The FPC range of **Firesure®** is probably the only range backed by **Failure to perform insurance** called Efficacy insurance (or 'failure to perform' cover) protects you against the legal liability for injury to third parties, or damage to third party property, when a product or service you supply fails to perform its intended function subject to being fitted all in accordance with specified installation details and within the tested scope of application. Covered up to £10,000,000.00 .
